IMPORTANT NOTICE

In the interest of transparency and to inform interested parties, CESR has published the following (together the “Tables”):

- *the Correspondence Tables on the CESR Standards for Investor Protection (Ref. CESR/03-416b to 423b, CESR/03-134/Country);*
- *the Correspondence Tables on the CESR Standards for Alternative Trading Systems (Ref. CESR/03-415b, CESR/03-135/Country);*
- *the Synthesis Tables (Ref. CESR/03-427b and CESR/03-432b);*
- *the List of Alternative Trading Systems currently operating in Member States¹ (Ref. CESR/03-497b);*
- *the explanatory notes and caveats attached to the Tables.*

The Tables were produced by the Members of CESR¹ within the constraints of and solely for the purposes of the CESR Review Panel process of monitoring the status of implementation of the CESR Standards for Investor Protection² and the CESR Standards for Alternative Trading Systems³ in Member States.

The Tables have no legal effect; they do not present any interpretation of, or definitive position on, existing law or regulation in any jurisdiction. The Tables should not be relied upon for any purpose other than the purpose for which they were prepared. In particular, they should not be relied upon as a substitute for, or as guidance on, any aspect of the regulatory system of any Member State or as a defence in supervisory activities or enforcement proceedings; and they cannot be used to restrict competent authorities in taking regulatory or enforcement actions.

The information set out in the Tables is the response of each Member’s self-assessment. For this reason, the content of the Tables regarding a particular Member State has been prepared solely by the relevant Member on a best-efforts basis. (In a next step, the CESR Review Panel is going to conduct a common and collective peer exercise in reviewing the responses from all Members.) In case of discrepancy between the tables containing the responses from all CESR Members and the tables containing the individual responses from a particular CESR Member, the latter should be referred to.

The Tables provide a “snap shot” and will be up-dated on a regular basis to take account of regulatory developments in Member States. Therefore, they cannot be considered as fully finalised or definitive reflections of regulatory provisions in Member States. The Tables should also be read in light of current and future developments in the formulation of the proposed Directive on Markets in Financial Instruments (“ISD2”) and the future Level 2 implementing measures, and without prejudice to the position of any Member State in those developments.

For a more detailed account of the process, methodology and first, interim results, please see the “First Interim Report” by the Review Panel (Ref. CESR/03-414b).

¹ For reasons of simplicity, the term “Member” in this context refers to all participants in the Review Panel, i.e. CESR Members, CESR Observers, and the Polish securities regulators; this applies to the term “Member State” accordingly.

3.2 THE INVESTMENT FIRM'S DUTY TO CARE FOR THE CUSTOMER ¹⁵

Standard /Rule	Implementing authority(ies)	Implementing measure	Comments
----------------	-----------------------------	----------------------	----------

¹⁵ After having obtained the information from the customer according to chapter 3.1., the extent of an investment firm's duty to care for the customer depends on the nature of the investment service to be provided: where the service to be provided is a full hand-holding service of transmission or execution of order par. 72-76 apply; where the service to be provided is the pure transmission or execution of orders (This implies that no investment advice is provided and that suitability will not be tested on a transaction-by-transaction-basis) par. 74, 76 and 77 apply.

<p>72. When an investment firm provides investment advice to the customer, it must have reasonable grounds to believe, in light of the information disclosed to it by the customer and the information available to it, including the information arising from the customer relationship, that this investment advice is suitable for him. The investment firm must communicate the reasons why the advice is considered to be in the best interest of the customers at the time the advice is given.</p>	FME	<p>In general terms the investment firm has the duty to make the interest of the customer and the integrity of the market their priority according to art. 4 of the Act on Securities Transactions.</p>	<p>General clause regarding FME's Directive Requests: The FME plans to make changes to Directive Request no. 1/2001 and to issue a new directive request to fulfil its obligations to implement the CESR standards on investor protection, where this is within its authority. <p>73. Before accepting an order an investment firm must take reasonable care to verify that the order is suitable for the customer in light of the information disclosed to it by the customer and the information available to it, including the information arising from the customer relationship.</p>	FME		<p>See general clause regarding FME's Directive Requests.</p>
<p>75. Where an investment firm receives an order regarding a transaction that it considers – in the light of the information disclosed to it by the customer and the information available to it, including the information arising from the customer relationship – not suitable¹⁶ for the customer, it must advise the customer accordingly and provide appropriate information on the transaction, including any necessary risk warning. The investment firm may transmit or execute the order only if the customer nonetheless confirms his intention to proceed with the transaction in writing or by telephone and recorded, and provided that such confirmation contains an explicit reference to the warning received.</p>	FME		<p>See general clause regarding FME's Directive Requests.</p>

¹⁶ A transaction may be considered unsuitable for a customer, *inter alia*, because of the instrument involved (e.g. derivatives), because of the type of transaction (e.g. sale of options), because of the characteristics of the order (e.g. size or price specifications) or because of the frequency of the customer's trading.

74. <i>An investment firm must take reasonable care to verify that the customer has sufficient financial resources to settle the proposed transaction.</i>	FME		See general clause regarding FME's Directive Requests.
76. An investment firm may accept an order without having taken reasonable steps to verify the immediate availability of the funds (securities) necessary for carrying out the related purchase (sale) only if an adequate credit facility has been agreed on beforehand.	FME		See general clause regarding FME's Directive Requests.
77. Where the service to be provided is the pure transmission or execution of orders (either through a special distribution channel, in individual cases or generally) the customer must be made aware of this fact prior to the transaction taking place for the first time. On the basis of the information obtained from the customer on opening the account, the investment firm will define an appropriate service including investment parameters, i.e. types of instruments, types of transactions and types of orders, and inform the customer accordingly. Where the investment firm receives an order regarding a transaction, which is not in line with the defined investment parameters, it must warn the customer accordingly and provide appropriate information on the transaction, including any necessary risk warning(s). The investment firm may transmit or execute the order only if the customer nonetheless confirms his intention to proceed with the transaction in writing or by telephone and recorded, and provided that such confirmation contains an explicit reference to the warning received. FME		See general clause regarding FME's Directive Requests.
<p>121. For information purposes with respect to the customer, the contract must indicate an appropriate benchmark, based on financial indicators produced by third parties and in common use, that is consistent with management objectives and against which the future results are to be compared. Where it is not feasible to establish such a benchmark in view of specific customer objectives, this must be stated clearly in the contract and an alternative measure of performance must be indicated.</p>	FME		See general clause regarding FME's Directive Requests.
<p>122. The contract must state whether the financial instruments are to be valued at bid/ask or offer or mid-market price, including any relevant currency exchange rates, and, where relevant, by reference to indicators such as yield curves or other pricing models or the methodology to be used to value unlisted equities.</p>	FME		See general clause regarding FME's Directive Requests.

<p>127. An investment firm may delegate the portfolio management function to another investment firm only if such delegatee firm is authorised in its home country to provide portfolio management services on an individual basis and is qualified and capable of undertaking the function in question. The mandate shall not prevent the effectiveness of supervision over the delegator, and in particular, it must not prevent the delegator from acting in the best interests of its customers. In no case the investment firm may delegate its functions to the extent that it becomes a letter box entity. Furthermore, it may so delegate to a non-EEA investment firm so authorised in its home country only if an appropriate formal arrangement between regulators enables them to exchange material information concerning both cross-border delegations and the delegatee.</p>	FME		See general clause regarding FME's Directive Requests.

C. CORE STANDARDS FOR THE “COUNTERPARTY RELATIONSHIP”

1. The “counterparty relationship”

Standard	Implementing authority(ies)	Implementing measure	Comments
<p>A « counterparty relationship » is typical of trading between investment firms and banks within themselves or with other entities which are not holding themselves out as providers of investment services but are market participants directly active in the financial market for proprietary trading. It is characterised by the absence of a “client relationship” (i.e. without any provision of service). In particular, it covers the following situations:</p> <ul style="list-style-type: none"> - transactions executed in regulated markets or other trading venues (which do not give rise to any provision of investment service to the customer) between any member admitted to trade in these markets; - transactions executed directly (over-the-counter) between investment firms or credit institutions, authorised to provide the service of dealing, and dealing either as principal or as agent; - transactions executed directly (over-the-counter) between investment firms or credit institutions and other authorised or regulated financial intermediaries, including non-ISD firms, such as commodity dealers, insurance companies, but not including collective investment schemes and management companies of such schemes, pension funds and management companies of such funds. 	Parliament		<p>This following comment applies to the whole chapter on the “Counterparty Relationship”: No “Counterparty Regime” has been set up under Icelandic law. The ministry of commerce is responsible for preparing bills of law proposing changes to securities regulation. In mid year 2004 the FME will present to the ministry of commerce a list of recommended changes to law it considers necessary to implement the CESR standards on investor protection. The implementation process will after that not be in the hands of the FME and therefore no estimated time of implementation can be given.</p>
<p>CESR Members are free to allow companies to be treated as “counterparties” and to define the appropriate quantitative thresholds. In case of cross-border business, if the company is located in a jurisdiction where the “counterparty regime” is not applicable to companies, the professional regime will apply to that relationship.</p>	Parliament		
<p>Transactions entered into by these entities and effected through the offices of an authorised intermediary would be, by default, subject to the « professional regime ». Only those transactions undertaken by these entities for which they are direct “counterparties” and for which a specific choice to enter into a “counterparty relationship” has been made, are liable to operate subject to such a regime.</p>	Parliament		

The entities meeting one of the above mentioned criteria and willing to enter into a « counterparty relationship » have to reciprocally confirm in the contract that the transaction is executed under a « counterparty relationship ». This confirmation may be given in master agreements, where applicable to a series of transactions of the same nature.	Parliament

<p>10. a) Entities which are required to be authorised or regulated to operate in the financial markets. The list below should be understood as including all authorised entities carrying out the characteristic activities of the entities mentioned: entities authorised by a Member State under a European Directive, entities authorised or regulated by a Member State without reference to a European Directive, and entities authorised or regulated by a non-Member State:</p> <ul style="list-style-type: none"> • Credit institutions • Investment firms • Other authorised or regulated financial institutions • Insurance companies • Collective investment schemes and management companies of such schemes • Pension funds and management companies of such funds <p>Commodity dealers.</p>	Parliament	<p>Art. 2.7 of the Securities act: “Institutional investors: a. the following public parties: i. the National Treasury, ii. the Central Bank of Iceland, and iii. the Housing Loan Fund; b. the following parties with operating licences on the financial market: i. financial undertakings, ii. Undertakings for Collective Investment in Transferable Securities (UCITS) and investment funds, iii. insurance companies, and iv. pension funds; c. individuals and legal entities who specifically request such in writing to a financial undertaking authorised to trade in securities, provided they fulfil the requirements for professional knowledge, regular trading and substantial financial strength, as specified in detail in a Regulation.</p>	
<p>b) Large companies ⁽¹⁸⁾ and other institutional investors:</p> <ul style="list-style-type: none"> • large companies and partnerships meeting two of the following size requirements on a company basis: <ul style="list-style-type: none"> • balance sheet total : EUR 20.000.000, • net turnover : EUR 40.000.000, • own funds: EUR 2.000.000. • Other institutional investors whose corporate purpose is to invest in financial instruments. 	Parliament	<p>The definition of professional investor in art. 2.7 of the Act on Securities Transactions includes individuals and legal entities who specifically request to be viewed as professional investors and do so in writing to a financial undertaking authorised to trade in securities, provided that they fulfil the requirements for professional knowledge, regular trading and substantial financial strength, as specified in detail in a regulation to be issued by the Ministry of Commerce.</p>	<p>A regulation with detailed requirements is in preparation at the Ministry of Commerce. No expected date of issuance has been given.</p>
<p>National and regional governments, Central Banks, international and supranational institutions such as the World Bank, the IMF, the ECB, the EIB and other similar international organisations.</p>	Parliament	<p>The definition of professional investor in art. 2.7 of the Act on Securities Transactions includes the National Treasury, the Central Bank of Iceland and the Housing Loan Fund. National and regional governments in general and so forth are not included in the definition.</p>	

⁽¹⁸⁾ Whilst CESR acknowledges that issuers of listed financial instruments, i.e. entities whose securities (equity instruments or other) are traded on a regulated market (within the meaning of article 1.13 of the ISD), should be treated as professional investors, Members are free to implement the categorisation of these issuers in line with the thresholds applicable to large companies and partnerships.

11. The entities mentioned in §10 are considered to be professionals. They must however be allowed to request non-professional treatment and investment firms may agree to provide a higher level of protection. Where the customer of an investment firm is a company or a partnership referred to in §10, the investment firm must inform it prior to any provision of services that, on the basis of the information available to the firm, the customer is deemed to be professional investor, and will be treated as such unless the firm and the customer agree otherwise. The firm must also inform the customer that he can request a variation of the terms of the agreement in order to secure a higher degree of protection.	Parliament		
12. It is the responsibility of the client considered to be a professional investor to ask for a higher level of protection when it deems it is unable to properly assess or manage the risks involved.	Parliament		
13. This higher level of protection will be provided when an investor who is considered to be a professional enters into a written agreement with the investment firm to the effect that it shall not be treated as a professional for the purposes of the applicable conduct of business regime. Such agreement should specify whether this applies to one or more particular services or transactions, or to one or more types of product or transaction.	Parliament		

2. Categories of investors who may be treated as professionals on request

2.1. Identification criteria

Standard	Implementing authority(ies)	Implementing measure	Comments
14. The members of CESR consider that investors other than those mentioned in § 10, including public sector bodies ⁽¹⁹⁾ and private individual investors, may also be allowed to waive some of the protections afforded by the conduct of business rules. Investment firms should therefore be allowed to treat any of the above investors as professionals provided the relevant criteria and procedure mentioned below are fulfilled. These investors should not, however, be presumed to possess market knowledge and experience comparable to that of the categories listed in §10.	Parliament	The definition of professional investor in art. 2.7 of the Act on Securities Transactions includes individuals and legal entities who specifically request to be viewed as professional investors and do so in writing to a financial undertaking authorised to trade in securities, provided that they fulfil the requirements for professional knowledge, regular trading and substantial financial strength, as specified in detail in a regulation to be issued by the Ministry of Commerce.	A regulation with detailed requirements is in preparation at the Ministry of Commerce. No expected date of issuance has been given.

⁽¹⁹⁾ It should be noted that public sector bodies are subject to specific regulations that might prevent them from entering into certain types of transactions or opting for the professional conduct of business regime.

<p>15. Any such waiver of the protection afforded by the standard conduct of business regime shall be considered valid only if an adequate assessment of the expertise, experience and knowledge of the client, undertaken by the investment firm, gives reasonable assurance, in light of the nature of the transactions or services envisaged, that the client is capable of making his own investment decisions and understanding the risks involved.</p> <p>The fitness test applied to managers and directors of entities licensed under European Directives in the financial field could be regarded as an example of the assessment of expertise and knowledge. In the case of small entities, the person subject to the above assessment should be the person authorised to carry out transactions on behalf of the entity.</p>	Parliament	See above.	
<p>16. In the course of the above assessment, as a minimum, two of the following criteria should be satisfied:</p> <ul style="list-style-type: none"> • The investor has carried out transactions, in significant size, on the relevant market at an average frequency of 10 per quarter over the previous four quarters; • The size of the investor's financial instrument portfolio, defined as including cash deposits and financial instruments exceeds 0,5 million Euro; <p>The investor works or has worked in the financial sector for at least one year in a professional position, which requires knowledge of the transactions or services envisaged.</p>	Parliament	See above. Detailed criteria have still to be defined in regulation.	

2.2. Procedure

Standard	Implementing authority(ies)	Implementing measure	Comments
<p>17. The investors defined above may waive the benefit of the detailed rules of conduct only where the following procedure is followed:</p> <p>a) they must state in writing to the investment firm that they wish to be treated as a professional investor, either generally or in respect of a particular investment service or transaction, or type of transaction or product;</p> <p>b) the investment firm must give them a clear written warning of the protections and investor compensation rights they may lose;</p> <p>c) they must state in writing, in a separate document from the contract, that they are aware of the consequences of losing such protections.</p>	Parliament		

<p>18. Before deciding to accept any request for waiver, investment firms must be required to take all reasonable steps to ensure that the client requesting to be treated as a professional investor meets the relevant requirements stated in Section II.1 above.</p> <p>However, if investors have already been categorised as professionals under parameters and procedures similar to those above, it is not intended that their relationships with investment firms should be affected by any new rules adopted pursuant to this paper.</p>	Parliament		
<p>19. Firms must implement appropriate written internal policies and procedures to categorise investors.</p> <p>Professional investors are responsible for keeping the firm informed about any change, which could affect their current categorisation. Should the investment firm become aware however that the investor no longer fulfils the initial conditions, which made him eligible for a professional treatment, the investment firm must take appropriate action.</p>	Parliament
